CORE LEADERSHIP

IT BEGINS HERE IN STUDENT LEADERSHIP

Are your current and future leaders playing a proactive role in impacting school climate? Is there a forum to develop leadership principles in these students? We recognize that all students possess the ability to contribute to their school and community. However, most students seldom receive formal training in basic leadership skills so that their roles of leadership become more meaningful and effective.

The CORE LEADERSHIP ACADEMY provides an on-campus forum, where academic and athletic student leaders receive a customized, intensive, two day training that teaches leadership and life skills.

With follow-up assignments and a “pay it forward” component, student leaders are empowered to put into action all they have learned, creating a supportive and inclusive school culture.

This program is really about creativity, reaching out and making a difference for good within your own life, school and community. The response on the part of the students and their parents has been phenomenal.”
